What is Elevate-HER?

Female Research Empowerment and Academic Career Reinforcement in Senegal Higher Education

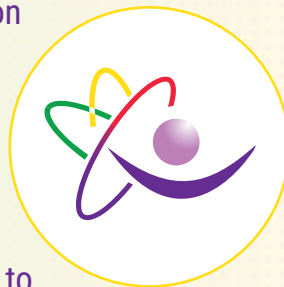

A project aiming to directly address the needs for Capacity Building in Senegalese Higher Education Institutions to provide women pursuing or willing to pursue a career in Science, Technology, Engineering, Arts and Mathematics (STEAM), with the necessary skills to guarantee their employability.

Learning from the experience of female researchers around the world, women researchers in Senegal will have clear references and role models that will allow them to empower themselves and pursue their goals, being the change for future generations.

Elevate-HER will

1

Empower female academics and research professionals by providing them with training on soft and digital skills relevant for Research as well as tailor-made mentoring sessions.

2

Equip Female Researchers in Senegal with new capacities and tools to facilitate their visibility, access and permanence of women to research careers, providing them with Individual Career Development Plans.

Our aim is to:

Empower women pursuing or willing to pursue a career in research

1

2

Improve employability and adaptability of female researchers at all career stages

3

Provide them with training, new capacities and tools relevant for Research as well as mentoring sessions

4

Develop the necessary skill sets to guarantee the employability of female academics and research professionals

5

To enhance their visibility, access and permanence of women to research careers
